Jonathan Staiano

Founder of The Staiano Clinic

STAIANO
PLASTIC SURGERY

“ Right after my first consultation with Mr. Staiano I said to my partner "I've just found the surgeon for me." ”
DG – Breast Reduction

“ I'm so happy I went to Mr Staiano for my surgery, I can't imagine any other surgeon could have treated me better or given me better results. ”
JH – Breast Enlargement

Jonathan Staiano

BSc | MBBS | MSc | FRCS (Eng) | FRCS (Plast)

Jonathan Staiano is a fully UK trained Consultant Plastic Surgeon with a practice specialising in cosmetic breast surgery and body contouring.

Jonathan has the highest qualifications possible for a plastic surgeon in the UK, FRCS (Plast), and is on the GMC specialist register for Plastic Surgery. He is a full member of the British Association of Plastic, Reconstructive and Aesthetic Surgeons (BAPRAS), the International Society of Aesthetic Plastic Surgeons (ISAPS) and the British Association of Aesthetic Plastic Surgeons (BAAPS).

Jonathan has a special interest in cosmetic breast surgery and body contouring and he also has extensive experience in the management of benign and malignant skin lesions. He performs breast enlargement, reduction and uplifts, gynaecomastia correction (breast reduction for men), surgery for breast asymmetry, as well as a full reconstructive service following mastectomy. He is one of only a few surgeons trained to perform microsurgical free DIEP and TRAM flap breast reconstructions as well as extended latissimus dorsi flaps and implant reconstructions.

His body contouring practice includes treating people following weight loss or pregnancy and includes abdominoplasty (tummy-tuck), liposuction, brachioplasty (arm reduction) and thigh lift.

Minor procedures such as mole removal can be performed in the clinic's specially equipped minor procedures room. Operations requiring general anaesthetic are performed at one of a number of local, excellent private hospitals with a highly trained professional team of theatre staff.

Jonathan qualified in medicine from Guy's Hospital in London 1994. He has a BSc in pharmacology and a Masters degree in surgical sciences from University College London. He became a Fellow of the Royal College of Surgeons of England in 1998 and passed the intercollegiate speciality examination in plastic surgery in 2005. He has completed a cosmetic fellowship in the North West and has undertaken specialist fellowships in the field of cancer reconstruction at the Royal Marsden in London and in Wellington, New Zealand. He was a consultant plastic surgeon in the NHS for 5 years initially at Addenbrooke's Hospital in Cambridge and then City Hospital in Birmingham where he specialised in breast reconstruction.

Jonathan has now left the NHS and is in full time private practice. He runs Staiano Plastic Surgery in Edgbaston, Birmingham, a boutique plastic surgery clinic dedicated to breast surgery and body contouring.

The Staiano Vision

The reputation of the UK plastic surgery industry has suffered in recent years. Much of the industry has been led by commercial clinics who have put profit before patients. I believe it is time for a national brand in plastic surgery that stands for transparency, accountability and prioritising the patient's experience over profit. In direct response I launched Staiano Plastic Surgery – believing that the patient journey from start to finish should be led by me the Consultant. The Clinic employs nurses and administrative staff, but there are no patient advisors. I personally see patients from the initial consultation through to the final follow up meeting.

I am dedicated to providing a first class service to my patients. I offer a sympathetic and understanding ear and will do everything I can to make sure that your result will be the best it can possibly be.

Staiano Plastic Surgery practice is entirely independent and ethically driven. The benchmark of success is your satisfaction with the results of the procedure from start to finish and we are very proud of our countless positive testimonials from satisfied patients.

Staiano Plastic Surgery, Edgbaston, is the flagship clinic in a new way of providing the highest levels of patient satisfaction and we will bring a new era to plastic surgery where patient satisfaction is at the heart of what we strive for.
